

The Torray Fund

Letter to Shareholders

January 31, 2021

Dear Fellow Shareholders:

The Torray Fund fell 2.51% in 2020, compared to a gain of 2.80% for the Russell 1000 Value Index and 18.40% for the Standard & Poor's 500 Index. Stating the obvious, mandated lockdowns associated with the pandemic resulted in sharp declines in business activity, though the effects were unevenly distributed across the economy. Digital businesses, for example, strengthened during the year as consumers and employees increased their reliance on broadband, while many "brick and mortar" companies (to which the Fund has exposure) were forced to operate at reduced capacity. This dynamic is reflected in S&P 500 results with 66% of the annual return attributed to the 6 largest technology companies, comprising 21.5% of the S&P 500 capitalization.

Combined with the vaccine rollout, fiscal and monetary actions already taken could boost business conditions in a material way. For the 2020 and 2021 fiscal years, the cumulative federal deficits will likely total \$5.3 trillion and the Federal Reserve's balance sheet will have grown over \$4 trillion, and more stimulus is on the way. The path will not be smooth, but unemployment has already fallen to 6.75% from its peak of 14.7% in April, and industrial production has increased over 14% since its April low. Following announcements of vaccine approvals in the fourth quarter, "re-opening" prospects for a number of industries appeared to brighten, including financials, industrials and energy. This expectation contributed to the Fund's fourth quarter return of 17.27%, which outperformed the Russell 1000 Value Index return of 16.25% and the S&P 500 return of 12.15% over the same period.

In our mid-year report we discussed steps taken during the market downturn that we felt would improve the quality and financial strength of the portfolio, and this effort continued through year end. While maintaining our value orientation we continued to focus on what we consider to be good businesses with visible growth opportunities, becoming more selective in assessing companies with secular challenges. In the second half of the year, we sold American International Group (AIG), BP Plc (BP), Cisco Systems (CSCO), Dow, Inc. (DOW) and Sysco (SYY). You may be somewhat surprised to see the Sysco transaction, as we just told you about the purchase in our last letter. We have not become short-term traders, but Sysco's rapid appreciation reduced our expectation for a satisfactory return in the years ahead. Positions were initiated in the following companies:

- Oracle Corporation (ORCL) – Oracle provides products and services for all aspects of corporate technology. It is leveraging its strong position in database management to increase its cloud offerings.
- SEI Investments (SEIC) – SEI is a global provider of technology services and platforms for wealth and investment management solutions. It also owns an equity stake in LSV Asset Management, a large value-oriented investment manager.
- Genuine Parts (GPC) – Genuine Parts is a large distributor of automotive replacement and industrial parts. With recent divestitures, the company is now focused on strengthening its core businesses and international expansion.
- Comcast Corporation Class A (CMCSA) – Comcast is the nation's leading cable company (based on subscribers) with interests in media and entertainment. Its broadband offering is serving increased demands for faster speeds, secure applications and connections for more devices.

The Torray Fund

Letter to Shareholders

January 31, 2021

These companies, in our view, have good positions in growing markets, generate free cash flow and exhibit a strong shareholder orientation. Comcast, Oracle and SEI have what we consider to be meaningful insider ownership and Genuine Parts has increased its dividend for 64 consecutive years. We believe these attributes help sustain a constructive long-term focus.

One year ago, as we discussed the benign financial conditions prevailing at the time, we said we did not know when they might change. We still don't know. As this is written, interest rates are even lower and equity valuations even higher. The 10-year US Treasury bond yield has fallen from 1.7% to 1.1% (after touching .51% in August) and the forward 12-month price earnings ratio of the S&P 500 has risen from 18.5 times to 22.5 times. For the reasons cited above, it is our feeling that interest rates have more upside than downside. This could begin to restrain general equity valuations, but we believe Fund companies' earnings will benefit as the country recovers and this should produce satisfactory returns for shareholders.

As always, we want you to know how much we appreciate the confidence and support you have placed in us.

Sincerely,

Shawn M. Hendon

Jeffrey D. Lent

Brian Zaczynski

Free cash flow is the cash a company generates after taking into consideration cash outflows that support its operations and maintain its capital assets. **Price earnings ratio** relates a company's share price to its earnings per share. Earnings per share is calculated as a company's profit divided by the outstanding shares of its common stock.

Mutual fund investing involves risk including the possible loss of principal value. At times, the Fund's portfolio may be more concentrated than that of a more diversified fund subjecting it to greater fluctuation and risk.

The returns quoted represent past performance and do not guarantee future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher. For performance current to the most recent month end, please call (800) 626-9769. The returns shown do not reflect the deduction of taxes a shareholder would pay on the redemption of fund shares and distributions. As of the most recent prospectus, the Fund's Gross Expense Ratio is 1.15%. The Fund's Net Expense Ratio is 1.06% after fee waiver and expense reimbursements made pursuant to an operating expense limitation agreement between Torray LLC and the Fund. Such agreement will contractually remain in effect through April 30, 2021. Returns on both The Torray Fund, the Russell 1000 Value Index and the S&P 500 Index assume reinvestment of all dividends and distributions. The Russell 1000 Value Index measures the performance of the large capitalization value segment of the U.S. equity universe. The S&P 500 Index is an unmanaged index consisting of 500 U.S. large capitalization stocks. It is not possible to invest directly in an index. Current and future portfolio holdings are subject to change and risk. Mutual fund investing involves risk, including the possible loss of principal value. At times, the Fund's portfolio may be more concentrated than that of a more diversified fund, subjecting it to greater fluctuation and risk.

The Torray Fund

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2020

NOTE 1 — ORGANIZATION

The Torray Fund (“Fund”) is a separate diversified series of The Torray Fund (“Trust”). The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust is organized as a business trust under Massachusetts law. The Fund’s investment objectives are to build investor wealth over extended periods and to minimize shareholder capital gains tax liability by limiting the realization of long- and short-term gains. The Fund invests principally in common stock of larger-capitalization companies that generally have demonstrated records of profitability, conservative financial structures and shareholder-oriented management. The Fund seeks to invest in such companies when it believes that valuations are modest relative to earnings, cash flow or asset values. Large capitalization companies are those with market capitalizations of \$8 billion or more. Investments are held as long as the issuers’ fundamentals remain intact, and the Fund believes issuers’ shares are reasonably valued. There can be no assurance that the Fund’s investment objectives will be achieved. The Fund is an investment company and accordingly follows the investment companies accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Security Valuation – All investments in securities are recorded at their estimated fair value, as described in Note 3.

Federal Income Taxes – The Fund complies with the requirements of subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Fund. Therefore, no federal income tax provision is required. As of and during the year ended December 31, 2020, the Fund did not have any tax positions that did not meet the “more-likely-than-not” threshold of being sustained by the applicable tax authority. As of and during the year ended December 31, 2020, the Fund did not have liabilities for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. As of and during the year ended December 31, 2020, the Fund did not incur any interest or penalties. The Fund is not subject to examination by U.S. tax authorities for tax years prior to December 31, 2017.

Security Transactions and Investment Income – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities using the constant yield method. Non-cash dividend income is recognized at the fair value of property received.

NOTES TO FINANCIAL STATEMENTS (continued)

As of December 31, 2020

The Fund distributes all net investment income, if any, quarterly and net realized capital gains, if any, annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund. For the year ended December 31, 2020, the Fund decreased paid-in capital by \$289 and increased total distributable earnings by \$289.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 — SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion of changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis. The Fund's investments are carried at fair value.

Equity Securities – Securities that are primarily traded on a national securities exchange are valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for

The Torray Fund

NOTES TO FINANCIAL STATEMENTS (continued)

As of December 31, 2020

which market quotations are readily available are valued using the Nasdaq Official Closing Price (“NOCP”). If the NOCP is not available, such securities are valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. If the market for a particular security is not active, and the mean between bid and ask prices is used, these securities are categorized in Level 2 of the fair value hierarchy.

Short-Term Investments – Investments in money market funds are valued at their net asset value per share. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Short-term debt securities (maturing in 60 days or less), such as U.S. Treasury Bills, are valued at amortized cost, which approximates market value and are categorized in Level 2 of the fair value hierarchy.

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board of Trustees. As of December 31, 2020, no Fund portfolio securities were priced in accordance with such procedures.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund’s securities as of December 31, 2020:

| | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> | <u>Total</u> |
|---------------------------------|----------------------|----------------|----------------|----------------------|
| Common Stocks | \$347,448,939 | \$ — | \$ — | \$347,448,939 |
| Short-Term Investment | 9,018,026 | — | — | 9,018,026 |
| Total Investments in Securities | <u>\$356,466,965</u> | <u>\$ —</u> | <u>\$ —</u> | <u>\$356,466,965</u> |

Refer to the Schedule of Investments for further information on the classification of investments.

NOTE 4 — MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement (“Management Contract”) with Torray LLC (the “Manager”) to furnish investment advisory services and to pay for certain operating expenses of the Fund. Pursuant to the Management Contract between the Trust and the Manager, the Manager is entitled to receive, on a monthly basis, an annual management fee equal to 1.00% of the Fund’s average daily net assets. For the year ended December 31, 2020, the Fund incurred management fees of \$3,372,231.

The Manager and the Fund have entered into an Operating Expenses Limitation Agreement (the “Agreement”) whereby the Manager has contractually agreed for the term of Agreement to waive its management fee and reimburse the Fund for its current Operating Expenses so as to limit the Fund’s current Operating Expenses to an annual rate, expressed as a percentage of the Fund’s average annual net assets, to 1.00%. For purposes of the Agreement, the term “Operating Expenses” includes the Manager’s management fee and all other expenses necessary or appropriate for the operation of the Fund, excluding any front-end or contingent deferred loads, taxes, leverage, interest, brokerage commissions, acquired fund fees and expenses, trustee fees and expenses, auditor fees and expenses, legal fees and

The Torray Fund

NOTES TO FINANCIAL STATEMENTS (continued)

As of December 31, 2020

expenses, insurance costs, registration and filing fees, printing, postage and mailing expenses, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation. Fees waived and expenses paid by the Manager are not eligible for recoupment. The Agreement will remain in effect until April 30, 2021.

U.S. Bancorp Fund Services, LLC (the “Administrator”), doing business as U.S. Bank Global Fund Services, acts as the Fund’s Administrator, Transfer Agent, and Fund Accountant. U.S. Bank, N.A. (the “Custodian”) serves as the Custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Custodian; coordinates the payment of the Fund’s expenses and reviews the Fund’s expense accruals. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees incurred by the Fund for administration and accounting, transfer agency, custody and compliance support services for the year ended December 31, 2020, are disclosed in the Statement of Operations.

Certain officers and Trustees of the Fund are also officers and/or shareholders of the Advisor and are not paid by the Fund for serving in such capacities.

NOTE 5 — SHARES OF BENEFICIAL INTEREST TRANSACTIONS

Transactions in shares of beneficial interest were as follows:

| | Year ended 12/31/20 | | Year ended 12/31/19 | |
|-------------------------------|------------------------|-----------------------|------------------------|-----------------------|
| | <u>Shares</u> | <u>Amount</u> | <u>Shares</u> | <u>Amount</u> |
| Shares sold | 41,364 | \$ 1,726,809 | 18,545 | \$ 897,164 |
| Reinvestment of distributions | 262,120 | 10,832,556 | 202,561 | 10,049,147 |
| Shares redeemed | <u>(890,890)</u> | <u>(38,351,384)</u> | <u>(691,898)</u> | <u>(33,490,920)</u> |
| | <u>(587,406)</u> | <u>\$(25,792,019)</u> | <u>(470,792)</u> | <u>\$(22,544,609)</u> |

As of December 31, 2020, the Trust’s officers, Trustees and affiliated persons and their families directly or indirectly controlled 1,757,209 shares or 23.5% of the Fund.

NOTE 6 — INVESTMENT TRANSACTIONS

Purchases and sales of investment securities, other than short-term investments, for the year ended December 31, 2020, aggregated \$108,051,686 and \$103,405,226, respectively.

NOTE 7 — TAX MATTERS

Distributions to shareholders are determined in accordance with United States federal income tax regulations, which may differ from GAAP.

The Turray Fund

NOTES TO FINANCIAL STATEMENTS (continued)

As of December 31, 2020

The tax character of distributions paid during the year ended December 31, 2020, and the year ended December 31, 2019, were as follows:

| | <u>2020</u> | <u>2019</u> |
|--------------------------|---------------------|---------------------|
| Distributions paid from: | | |
| Ordinary Income* | \$ 4,910,152 | \$ 7,774,740 |
| Long-Term Capital Gains | <u>6,770,235</u> | <u>3,169,458</u> |
| | <u>\$11,680,387</u> | <u>\$10,944,198</u> |

* For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income.

As of December 31, 2020, the components of distributable earnings on a tax basis were as follows:

| | |
|----------------------------|----------------------|
| Unrealized appreciation | \$119,404,787 |
| Other accumulated loss | <u>(9,255,618)</u> |
| Total accumulated earnings | <u>\$110,149,169</u> |

As of December 31, 2020, the Fund had \$9,255,618 in long-term capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31. For the taxable period ended December 31, 2020, the Fund does not plan to defer any late year losses.

The cost basis of investments for federal income tax purposes at December 31, 2020, were as follows:

| | <u>2020</u> |
|-------------------------------|----------------------|
| Gross unrealized appreciation | \$126,320,653 |
| Gross unrealized depreciation | <u>(6,915,866)</u> |
| Net unrealized appreciation | <u>119,404,787</u> |
| Cost | <u>\$237,062,178</u> |

NOTE 8 — SECTOR RISK

As of December 31, 2020, the Fund had a significant portion of its assets invested in the Financials sector. The Financials sector may be more greatly impacted by the performance of the overall economy, interest rates, competition, and consumer confidence spending.

For purposes of financial statement reporting, 36.1% of portfolio holdings at period end were classified according to Global Industry Classification Standards (GICS) as belonging to the Financials sector. However, the Fund believes the actual Financials concentration risk to be below that shown for the Financials sector, as several of the constituent companies are diversified holding companies, with portions of their businesses falling outside the sector.

NOTES TO FINANCIAL STATEMENTS (continued)

As of December 31, 2020

The global outbreak of COVID-19 (commonly referred to as “coronavirus”) has disrupted economic markets and the prolonged economic impact is uncertain. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The operational and financial performance of the issuers of securities in which the Fund invest depends on future developments, including the duration and spread of the outbreak, and such uncertainty may in turn adversely affect the value and liquidity of the Fund’s investments, impair the Funds’ ability to satisfy redemption requests, and negatively impact the Fund’s performance.

NOTE 9 — COMMITMENTS AND CONTINGENCIES

The Fund indemnifies its officers and Trustees for certain liabilities that may arise from their performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred.

NOTE 10 — SUBSEQUENT EVENTS

On April 8, 2021, the Fund will hold a special shareholder meeting to consider a vote on 1) a new investment advisory agreement (the “New Advisory Agreement”) between the Adviser and the Trust with respect to the Fund, that is necessary due to a proposed change in control as described in a proxy statement that will be mailed to shareholders in the near future and 2) the election of Trustees to the Trust, including four current Trustees, as well as two new Trustees who have been nominated by the current Board. Shareholders of record of the Fund at the close of business on the record date, February 8, 2021, are entitled to notice of and to vote at the Special Meeting and any adjournment(s) or postponements thereof. The Board approved the New Advisory Agreement at a meeting held on January 22, 2021 and is proposing shareholders approve the New Advisory Agreement and Trustees. The Notice of Special Meeting of Shareholders, proxy statement and proxy card will be mailed to such shareholders of record in the near future.

Management has performed an evaluation of subsequent events through the date the financial statements were issued and has determined that no additional items require recognition or disclosure.

The Torray Fund

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and the Shareholders of The Torray Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of The Torray Fund (the “**Fund**”), including the schedule of investments, as of December 31, 2020, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended and the financial highlights for each of the years in the five-year period then ended, and the related notes (collectively referred to as the “**financial statements**”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2020, and the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended and its financial highlights for each of the years in the five-year period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“**PCAOB**”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities law and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risk of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2020 by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

*** Mr. Lane, Mr. Hendon and Ms. Kellogg, by virtue of their employment with Torray LLC, the Trust's investment adviser, are considered "interested persons" of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended.

The Torray Fund

FACTORS CONSIDERED BY THE BOARD OF TRUSTEES IN CONNECTION WITH ITS APPROVAL OF THE CONTINUATION OF THE TRUST'S MANAGEMENT AGREEMENT WITH THE MANAGER (unaudited)

The Torray Fund ("Trust") has entered into a Management Contract (the "Agreement") with Torray LLC ("Manager") pursuant to which the Manager provides investment management and other services to The Torray Fund, a series of the Trust ("Fund"). In accordance with the Investment Company Act of 1940, the Trust's Board of Trustees ("Board"), including a majority of the Trustees who are not "interested persons" of the Trust as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended ("Independent Trustees") is required, on an annual basis, to consider the continuation of the Agreement with the Manager, and this must take place at an in-person meeting of the Board. The relevant provisions of the Investment Company Act of 1940, as amended ("1940 Act") specifically provide that it is the duty of the Board to request and evaluate such information as the Board determines is reasonably necessary to allow them to properly consider the continuation of the Agreement, and it is the duty of the Manager to furnish the Trustees with such information that is responsive to the Board's request.

At the meeting of the Board on September 22, 2020, the Board, including all of the Interested Trustees, considered and approved the continuation of the Agreement. Because of the covid-19 pandemic, the meeting was held electronically rather than in-person, consistent with SEC pronouncements temporarily waiving the requirement for in-person meetings to approve such agreements. Prior to the meeting, the Trustees received and considered information from the Manager designed to provide the Trustees with the information necessary to evaluate the terms of the Agreement ("Support Materials"). Before voting to approve the continuation of the Agreement, the Trustees and the Independent Trustees reviewed the Support Materials with counsel to the Fund, as well as a memorandum from such counsel discussing the legal standards applicable to their consideration of the continuation of the Agreement. The Manager also met with the Trustees and provided further information regarding the management services it provides to the Fund under the Agreement ("Management Services"), including but not limited to information regarding its overall investment philosophy with respect to the Fund. The Independent Trustees also convened in executive session with Counsel to discuss matters related to the continuation of the Agreement prior to voting on its renewal.

In determining whether to approve the continuation of the Agreement, the Trustees considered all factors they believed relevant to such determination, including the following: (1) the nature, extent, and quality of the Management Services; (2) the investment performance of the Fund; (3) the cost of the Management Services and the profits that the Manager realizes from its relationship with the Fund; (4) the extent to which the Manager realizes economies of scale as the Fund grows and whether fees for the Management Services reflect these economies for the benefit of the Fund's investors; (5) management fees paid by the Fund and the net and total expense ratios of the Fund compared other similar mutual funds; and (6) any other benefits that the Manager derives from its relationship with the Fund.

Based upon the Manager's presentation and Support Materials, the Board concluded that the overall arrangements between the Fund and the Manager as set forth in the Agreement are fair and reasonable in light of the services performed, fees paid, and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. In their deliberations, the Trustees did not identify any particular information that was all-important or controlling. The material factors and conclusions that formed the basis of the Trustees' determination to approve the continuation of the Agreement are summarized below.

Nature, Extent and Quality of Services. With respect to the nature, extent and quality of services that Manager renders, the Trustees considered the scope of services provided under the Agreement, which includes, but are not limited

FACTORS CONSIDERED BY THE BOARD OF TRUSTEES IN CONNECTION WITH ITS APPROVAL OF THE CONTINUATION OF THE TRUST'S MANAGEMENT AGREEMENT WITH THE MANAGER (unaudited) (continued)

to, the following: (1) investing the Fund's assets consistent with the Fund's investment objective, policies and restrictions; (2) making investment decisions and placing all orders for the purchase and sale of portfolio securities and cash instruments; (3) pursuant to its Operating Expense Limitation Agreement with the Trust, covering the costs of the administration, fund accounting, custody, transfer agency and distribution services that are provided to the Fund; (4) monitoring the compliance of the Fund's investment portfolio with applicable Federal securities laws and regulations and Internal Revenue standards; and (5) providing the interested Trustee, Chief Financial Officer and Chief Compliance Officer of the Fund and paying the salaries, fees and expenses of such persons. The Trustees also considered the long-term investment philosophy and the significant industry experience of the Manager's personnel involved in servicing the Fund, noting their high quality. In addition, the Trustees reviewed the Manager's brokerage and best-execution procedures and observed that they were reasonable and consistent with standard industry practice. The Trustees also noted that while the Manager is permitted to use soft dollars to acquire proprietary and third-party research, it receives only proprietary research and does not currently "pay-up" above execution cost to obtain such research. Finally, the Trustees discussed the state of the Manager's compliance program. They noted the significant resources that the Manager had expended to enhance the compliance program, implement and maintain the Liquidity Risk Management Program, and increase cybersecurity measures. They also noted that in March 2020, in response to the global outbreak of COVID-19, the Manager had successfully activated and continues to use its Disaster Recovery Plan. The Trustees concluded that they were satisfied with the nature, extent and quality of services provided by the Manager pursuant to the Agreement.

Performance of the Fund. The Board next reviewed the Fund's performance as reported in the Meeting Materials for the period ending July 31, 2020. The Trustees discussed the Manager's focus on long-term investing and risk management, as well as the fact that the Fund tends to underperform in strong markets and outperform in down markets. The Trustees noted the Fund's negative year-to-date return and negative returns for the one- and three-year periods, as well as the positive five-year, ten-year and since inception returns, all as of July 31, 2020. The Trustees further noted that the Fund's performance had lagged both the S&P 500 and its benchmark, the Russell 1000 Value Index, for all reported time periods, but also observed that the Fund's performance over the long term has generally more closely tracked the benchmark. The Trustees expressed some concerns about the Fund's performance, but also noted that it was perhaps not the right time, in the midst of the global pandemic and related great market volatility, to make definitive judgments on such matters or to encourage the Manager to make significant changes to the Fund's portfolio. The Trustees also agreed that in evaluating the Fund's performance, it was appropriate to take into consideration the very difficult and volatile market conditions in which the Fund has recently operated. In that regard, they noted management's view that such market volatility had provided opportunities to invest in companies management felt improved both the quality and financial strength of the portfolio. At the Trustees' request, the co-portfolio managers then rejoined the meeting to address questions from the Trustees. In response to these questions, they noted their continuing strong conviction about many of the Fund's portfolio holdings, but also discussed certain changes to the portfolio that management believed would improve performance. Mr. Hendon also noted that he expected the recent addition of Jeffrey Lent to the Fund as Co-Portfolio Manager would have a positive impact to the Fund's performance, noting that Mr. Lent brings over thirty years of experience and valuable knowledge to the investment management process. After further discussion, the Trustees concluded that they were satisfied with the Fund's performance, taking into account the difficult market conditions of the period and the positive portfolio and personnel changes that the Manager had described in its presentation to the Board. They also stated that they will continue to monitor the Fund's performance closely.

FACTORS CONSIDERED BY THE BOARD OF TRUSTEES IN CONNECTION WITH ITS APPROVAL OF THE CONTINUATION OF THE TRUST'S MANAGEMENT AGREEMENT WITH THE MANAGER (unaudited) (continued)

Cost of Advisory Services and Profitability. The Trustees considered and discussed with the Manager the profitability to the Manager of its relationship with the Fund (as reflected in a profitability analysis provided by the Manager), the overall profitability of the Manager (as reflected in a P&L statement of the Manager as of June 30, 2020), and the Manager's balance sheet as of the same date. Mr. Lane pointed out that the Manager compensates Foreside Distributors, LLC for the distribution/underwriting services it provides and also pays intermediary and platform fees on behalf of the Fund, and also covers the costs of the services that U.S. Bancorp Global Fund Services and its affiliates provide to the Fund. He also noted that Torray is no longer using the services of Endeavour Investment Partners, LLC for marketing of the Fund, and that instead the Manager will take on the marketing and distribution internally. After further discussion, the Trustees concluded that the Manager's profitability with respect to the Fund is reasonable, that its assets and revenues were sufficient to provide the services called for by the Agreement, and that the Manager's assets, coupled with its insurance coverage, were sufficient to cover potential liabilities incurred under the Agreement.

Comparative Fee and Expense Data; Economies of Scale. The Trustees discussed the Fund's management fee of 1.00% and its current net expense ratio of 1.06%. The Trustees noted that the management fee payable to the Manager is in the form of a partial "unified fee," an arrangement wherein the Manager pays certain expenses of the Fund from its management fee, and that comparative fee data for such arrangements is not readily available from data sources such as Morningstar. They also noted that the Manager has entered into an Operating Expense Limitation Agreement ("OELA") with the Fund, which remains in effect. The Trustees then discussed that the Manager receives a net management fee of approximately 90 basis points after payment of fees to Fund Services and other required waivers and reimbursements made pursuant to the OELA. They also considered that because the Fund has no rule 12b-1 or shareholder service fees, the Manager pays certain distribution and platform expenses exclusively from its own profits, noting that expense amounted to approximately five basis points. The Trustees then focused their attention on the gross and net expense ratios of comparable funds, noting that the Fund's expense ratios are slightly higher when compared to those funds within the Morningstar U.S. Large Value Funds category, the Fund's designated Morningstar category. The Trustees discussed economies of scale with the Manager and considered the Manager's representation that the Fund's asset level is not high enough to warrant breakpoints in the management fee. The Trustees also noted that the Manager advises thirteen separate accounts in a similar investment style to that of the Fund, and that with respect to twelve of these accounts, the Manager charged a significantly lower basis point fee, while the thirteenth account (whose purpose is to maintain a composite of this investment style) charged no management fee. The Trustees further noted however, that management of the Fund entails many additional regulatory and compliance responsibilities and higher costs, and therefore would be expected to have a higher fee. After further discussion, the Trustees concluded that the fees paid to the Manager under the Agreement and the Fund's overall expenses were reasonable and were not inflated to cover distribution-related expenses.

Other Benefits. The Trustees considered the Manager's representation that it does not derive any other benefits from its relationship with the Fund and concluded that Manager does not receive any additional financial or other benefits from its relationship with the Fund.

The Torray Fund

PORTFOLIO HOLDINGS, PROXY VOTING AND PROCEDURES

As of December 31, 2020 (unaudited)

The Fund files complete schedule of portfolio holdings with the Securities and Exchange Commission (the “Commission”) for the first and third quarters of each fiscal year on Part F of Form N-PORT. The Fund’s Part F of Form N-PORT is available Commission’s website at <http://www.sec.gov>. The Fund’s Part F of Form N-PORT may be reviewed and copied at the Commission’s Public Reference Room in Washington, D.C. Information on the operation of the Commissions Public Reference Room may be obtained by calling 1-800-SEC-0330.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling 1-855-753-8174.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling 1-855-753-8174; and on the Commission’s website at <http://www.sec.gov>

The Torray Fund

ABOUT YOUR FUND'S EXPENSES

As of December 31, 2020 (unaudited)

We believe it is important for you to understand the impact of costs on your investment. All mutual funds have operating expenses. As a shareholder of the Fund, you incur ongoing costs, including management fees, and other fund expenses. Operating expenses, which are deducted directly from the Fund's gross income, directly reduce the investment return of the Fund.

A mutual fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The examples below are based on an investment of \$1,000 made at the beginning of the period and held for the entire period from July 1, 2020 to December 31, 2020.

The table below illustrates the Fund's cost in two ways:

Actual Fund Return This section helps you estimate the actual expenses that you paid over the period. The "Ending Account Value" shown is derived from the Fund's actual return, and the third column shows the operating expenses that would have been paid by an investor who started with \$1,000 in the Fund. You may use the information here, together with the amount invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Fund under the heading "Expenses Paid During Period" below.

Hypothetical 5% Return This section is intended to help you compare your Fund's costs with those of other mutual funds. It assumes that the Fund had an annual return of 5% before expenses, and that the expense ratio is unchanged. In this case, because the return used is not the Fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the Commission requires all mutual funds to calculate expenses based on a 5% return. You can assess the Fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Note that expenses shown in the table are meant to highlight and help you compare ongoing costs only. The Fund does not charge transactions fees, such as purchase or redemption fees, nor does it carry a "sales load."

The calculation assumes no shares were bought or sold during the period. Your actual costs may have been higher or lower, depending on the amount of your investment and the timing of any purchases or redemptions.

More information about the Fund's expenses, including recent annual expense ratios, can be found in this report. For additional information on operating expenses and other shareholder costs, please refer to the Fund's prospectus.

| | <u>Beginning Account Value July 1, 2020</u> | <u>Ending Account Value December 31, 2020</u> | <u>Expenses Paid During Period⁽¹⁾</u> |
|---|---|---|--|
| Based on Actual Fund Return ⁽²⁾ | \$1,000.00 | \$1,190.70 | \$5.89 |
| Based on Hypothetical 5% Return (before expenses) | \$1,000.00 | \$1,019.76 | \$5.43 |

⁽¹⁾ Expenses are equal to the Fund's annualized expense ratio for the most recent six-month period of 1.07%, multiplied by the average account value over the period, multiplied by 184/366 to reflect the one-half year period.

⁽²⁾ Based on the actual returns for the six-month period ended December 31, 2020 of 19.07%.

The Torray Fund

TAX INFORMATION

As of December 31, 2020 (unaudited)

We are required to advise you within 60 days of the Fund's fiscal year end regarding the Federal tax status of certain distributions received by shareholders during such fiscal year. The information below is provided for the Fund's fiscal year ended December 31, 2020. All designations are based on financial information available as of the date of this annual report and, accordingly are subject to change. For each item it is the intention of the Fund to designate the maximum amount permitted under the Internal Revenue Code and the regulations thereunder.

Qualified Dividend Income/Dividends Received Deduction

For the fiscal year ended December 31, 2020, certain dividends paid by the Fund may be reported as qualified dividend income and may be eligible for taxation at capital gain rates. The percentage of dividends declared from ordinary income designated as qualified dividend income was 100.00% for the Fund.

For corporate shareholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for the fiscal year ended December 31, 2020, was 100.0% for the Fund.

The percentage of taxable ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Section 871(k)(2)(C) for the Fund was 0.00%.

Dividends and distributions received by retirement plans such as IRAs, Keogh-type plans and 403(b) plans need not be reported as taxable income. However, many retirement plan trusts may need this information for their information reporting.

PRIVACY NOTICE

The Fund collects only relevant information about you that the law allows or requires it to have in order to conduct its business and properly service you. The Fund collects financial and personal information about you (“Personal Information”) directly (e.g., information on account applications and other forms, such as your name, address, and social security number, and information provided to access account information or conduct account transactions online, such as password, account number, e-mail address, and alternate telephone number), and indirectly (e.g., information about your transactions with us, such as transaction amounts, account balance and account holdings).

The Fund does not disclose any non-public personal information about its shareholders or former shareholders other than for everyday business purposes such as to process a transaction, service an account, respond to court orders and legal investigations or as otherwise permitted by law. Third parties that may receive this information include companies that provide transfer agency, technology and administrative services to the Fund, as well as the Fund’s investment adviser who is an affiliate of the Fund. If you maintain a retirement/educational custodial account directly with the Fund, we may also disclose your Personal Information to the custodian for that account for shareholder servicing purposes. The Fund limits access to your Personal Information provided to unaffiliated third parties to information necessary to carry out their assigned responsibilities to the Fund. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your Personal Information and requires its third-party service providers with access to such information to treat your Personal Information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, credit union, bank or trust company, the privacy policy of your financial intermediary governs how your non-public personal information is shared with unaffiliated third parties.
